Your Weekly Horoscopes

ARIES

(March 20 - April 19)

This week you may be taking two steps forward and one step back on many fronts. This could be difficult for Aries, but waiting and being patient might be the best action. Lucky numbers: 1, 6, 7, 32, 41, 47.

TAURUS

(April 20 - May 20)

Taurus usually desires stability, but you may be craving freedom. Consider how to make progress, but not rip up the status quo. Wait a few days to implement. Lucky numbers: 10, 14, 25, 33, 37, 48.

GEMINI

(May 21 - June 20)

"When one door closes, another one opens" may apply early this week. Before charging through the new door, you might want to take a peek on the other side. Lucky numbers: 5, 10, 18, 30, 43, 48.

CANCER

(June 21 - July 22)

Lady luck may well be on your side this week. How might you be able to take advantage of this dynamic, while being conscious of what action is the bridge too far? Lucky numbers: 8, 26, 28, 32, 36, 37.

LEO

(July 23 - Aug. 22)

Do your head and heart agree on a goal? If not, could you develop a plan that takes the conflict into account? Then you might be able to proceed with your intentions. Lucky numbers: 2, 12, 20, 27, 29, 44.

VIRGO

(Aug. 23 - Sept. 22)

It has been about six months since your birthday. Have you made progress toward your goals? Take time to see which ones are ready to complete, change, or drop. Lucky numbers: 9, 16, 19, 21, 22, 30.

Lucky numbers this week: This week's odds favor Cancer winners with the luckiest number being 37.

Did You Know...

Mini marvel: One of the world's tiniest reptiles can perch on a fingertip. This tiny, newly discovered chameleon shows how incredibly scaled-down animals can be, while maintaining all the essentials of their larger cousins.

Volcanic flashes: When a volcano erupts, ash clouds can create static sparks near the ground, while ice crystals clash higher up to unleash lightning. These strange bursts of light turn eruptions into dramatic shows that scientists are still working to explain.

Butter boost: In Tibet, mornings often begin with yak butter tea, a rich mix of tea, salt, and butter that warms the body and fuels long days in the harsh mountain climate. More than a drink, it's also a gesture of hospitality.

Plastic pavements: Some road builders blend waste plastic into the road mix. The result can be more flexible, longer-lasting surfaces that reuse discarded material instead of sending it to landfill, an idea that is gradually gaining interest around the world.

Pebble presents: In the frozen Antarctic, penguins win affection by carrying small stones to their partners. These gifts help build sturdy nests that keep eggs safe and dry, turning a simple pebble into the perfect symbol of love.

On the Lighter Side

Teacher: "Correct this sentence: 'It was me who broke the window.' "

Student: "I wasn't the one who broke the window."

Knock! Knock! Who's there? Cello. Cello who? Cello there!

What does a bankrupt frog say? "Baroke, baroke, baroke."

Never trust an escalator. They are always up to something!

The magician was driving down the street when "poof" he turned into a driveway.

Answers

4. Madame Defarge 5. Fungi
